WASHING MACHINE ELECTROLUX

Open the water connection for the washing machine (on/off switch on the wall). Close the connection after program has finished.

CONTROLS AND PROGRAMS

- A Programme selector with OFF position
- B START/PAUSE button
- C DELAY START button
- D EXTRA RINSE button
- E TEMPERATURE SELECTION button
- F SPIN SPEED button
- G DELAY START TIME / WASH STAGE indicator lights
- H DOOR LOCKED indicator light
- I EXTRA RINSE indicator light
- L TEMPERATURE SELECTION indicator lights
- M SPIN SPEED indicator lights
- N SMART TOUCH area

USE

- 1. Open the water connection.
- 2. Select the required progrman by turning the programme selector.
- 3. Adjust the washing temperture if necessary and press required "option" buttons.
- 4. Press the START/PAUSE button to start washing.
- At the end of the programme, wait until the DOOR LOCKED light has gone out before opening the door (2 minutes).
- 6. Turn off the washing machine by turning the programme selector to OFF position.
- 7. Close the water connection.

Smart Touch

Customizable setting that interacts with the App on your smartphone and to download the cycles (see the dedicated section). The factory sets the default programme Auto-Clean, which will sanitize the machine.
