Using the machine

1. Turn the water connection on.
2. Make sure the drum and lid are properly closed.
3. Turn the program selector and set the program. Change temperature and/or spin speed if necessary.
4. Press Start/Pause button. Program starts and the lid locks.
5. The machine will stop automatically and the lid unlocks when the program is complete.
6. Remove the laundry and make sure the drum is empty.
7. Turn the water connection off.
8. Turn the machine off by turning the program selector to position o.
9. Leave the lid slightly open.
